## WILCON DEPOT ANNOUNCES $\ngtr 914$ MILLION FIRST HALF 2018 NET INCOME

- Net income hiked $19.9 \%$ y-o-y to $\neq 914$ million for a net margin of $9.1 \%$
- Net sales grew $18.0 \%$ y-o-y with comparable sales growth of $9.3 \%$
- Gross profit up $22.3 \%$ y-o-y as gross margin expanded to $31.3 \%$

Wilcon Depot, Inc. (PSE:WLCON), recorded net income of $\ngtr 914$ million for the first half of 2018, up $19.9 \%$ from the 763 million reported during the same period in 2017. The improvement was driven by strong comparable sales, the roll out and ramp up of new stores, and margin enhancement due to effective product mix strategy.

Net sales tallied at a solid $\neq 10.001$ billion for the first half of 2018 , up $18.0 \%$ from the $\neq 8.478$ billion in the first half of 2017. Expectedly, the second quarter results delivered following the relatively weaker first quarter because of the long holidays in March this year. Second quarter 2018 sales totaled $\ngtr 5.296$ billion, up $23.3 \%$ or $\ngtr 1.000$ billion year-on-year. The strong second quarter net sales balance is traced mainly from spillovers from the previous quarter, effective marketing efforts, the opening of three new depots and the sales ramp up of the five depots opened in 2017. Comparable sales growth for the half reached $9.3 \%$ as the old stores delivered an impressive $13.2 \%$ growth in the second quarter despite the decrease in project sales or sales to large institutional customers.

Net sales from the Company’s depot-format stores including project sales totalled $\neq 9.697$ billion representing $97.0 \%$ of total net sales for the period. This is $18.2 \%$ or $\ngtr 1.491$ billion higher than the same period the previous year attributable mainly to the opening of new depots and the better than expected sales growth from old depots partly offset by a decline in institutional or project sales. Excluding project sales, depot-only sales grew by $19.3 \%$ or $\ngtr 1.545$ billion to total $\ngtr 9.552$ billion for the first half of 2018 with same store sales growth reaching $10.1 \%$. The remaining $3.0 \%$ of net sales was from the smaller format "Home Essentials", which likewise reported an upswing of $12.0 \%$ or $\ngtr 33$ million to settle at $\ngtr 304$ million by the end of the six-month period from the prior year's $\ngtr 272$ million. There were two Home Essentials stores added during the first half, but the increase was still largely contributed by the old stores with same store sales growth for the format reaching $11.4 \%$.

Gross profit for the first half of 2018 amounted to $\neq 3.128$ billion, up $22.3 \%$ or $₹ 571$ million from the same period in 2017. The margin enhancing product mix strategy continued to work, with the gross profit margin maintained at $31.3 \%$ for the half as exclusive and in-house products accounted for $46.4 \%$ of total sales.

Operating expenses also rose by $21.9 \%$ or $\ngtr 366$ million to $\ngtr 2.039$ billion for the half from the same period in 2017 of $\ngtr 1.673$ billion traced mainly to the increased number of stores and volume of business. Other income likewise rose for the half to $\ngtr 182$ million versus last year’s $\nexists 94$ million due primarily to the interest income earned from the placement of the remaining IPO proceeds and cash generated from operations. Interest expense meanwhile dropped to $\ngtr 2$ million for the half from the previous year's $\neq 16$ million due to the paydown of bank loans.

EBIT and EBITDA margins as a result were similarly on the upward track reaching $12.7 \%$ and $13.3 \%$ for the half from the prior year's first half of $11.5 \%$ and $12.1 \%$, respectively.

According to the Company's CFO, Mark Andrew Belo, "Wilcon is looking at maintaining its 2018 net sales target growth rate of mid to high teens. While we have achieved our target for the first half, we have to continue to work hard in the second half to sustain our momentum. We have opened four depots and
two home essentials so far (as of August 9,2018) and we continue to push for the timely opening of the remaining five depots we committed to open within the year. As we are on track to achieve our sales growth target, we are likewise optimistic that we will achieve our mid-teens net income growth target."
