## WILCON DEPOT’S P1．247 B 1ST HALF 2021 NET PROFIT UP 254\％

－Net sales jumped $48.5 \%$ y－o－y to $尹 13.426$ B with a comparable sales growth of $36.4 \%$
－Gross profit grew $57.4 \%$ to $\neq 4.914$ B with a GPM of $36.6 \%$

Wilcon Depot，Inc．（Wilcon），the country＇s leading home and finishing construction supply retailer，today reported first half 2021 net income of $\ngtr 1.247$ billion，up $254.0 \%$ or $尹 895$ million year－on－year．The hike was driven by the increase in the number of transactions，as net sales jumped $48.5 \%$ and by the expansion in gross profit margin partly offset by the increase in operating expenses during the half．

## $\mathbf{2}^{\text {nd }}$ Quarter Results

Net income for the quarter rebounded，increasing to $\neq 643$ million from a mere $\neq 24$ million in the same period last year due mainly to the recovery in net sales and gross profit margin expansion．All branches remained open during the＂NCR plus bubble＂quarantine，which lasted for around half of the quarter．This new quarantine scheme allowed businesses to remain open but with tighter restrictions within the bubble．

Wilcon generated $\neq 6.751$ billion of net sales in the $2^{\text {nd }}$ quarter，up $95.7 \%$ or $\mp 3.301$ billion year－on－year driven by the increase in the number of transactions especially of branches in Luzon．Comparable sales also grew $79.7 \%$ and two new stores were added during the quarter．Wilcon has now 67 branches nationwide．

Gross profit for the quarter amounted to $\mathcal{P} 2.493$ billion，up $102.5 \%$ or $\mp 1.262$ billion year－on－year．The increase was driven by higher sales and gross profit margin rate，which expanded to $36.9 \%$ during the quarter．Operating expenses，including lease－related interest expense，meanwhile increased by $35.0 \%$ or $尹 446$ million to $\ngtr 1.720$ billion attributable mainly to the increase in the volume of business．This also resulted in the recovery of other income as rental income and net other income grew $23.2 \%$ or $\neq 14$ million to tally at $\ngtr 73$ million．Interest income of $\ngtr 8$ million dropped by $32.6 \%$ or $\ngtr 4$ million for the quarter．The reduction in income tax rate from $30 \%$ to $25 \%$ partly offset the increase in income tax expense，which totaled $₹ 212$ million，due to the higher taxable income．

## $1^{\text {st }}$ Half Results

The $\neq 643$ million $2^{\text {nd }}$ quarter net income with the $\mp 604$ million generated in the $1^{\text {st }}$ quarter，boosted earnings of $尹 1.247$ billion for the half by $254.0 \%$ or $尹 895$ million year－on－year．Net sales for the half amounted to $₹ 13.426$ billion，an increase of $48.5 \%$ or $₹ 4.386$ billion year－on－year．Comparable sales grew by $36.4 \%$ ，attributed mainly to the increase in the number of transactions particularly in branches located in Luzon，which unlike in 2020，remained open this year under the NCR plus bubble quarantine scheme． Four new stores were opened during the half．

The depots，accounting for $97.3 \%$ of total net sales，grew by $49.6 \%$ to 13.068 billion with a comparable sales growth of $37.1 \%$ ．The smaller format，Home Essentials，with net sales of $\neq 267$ million for the half， accounting for $2.0 \%$ of total net sales，posted a $24.2 \%$ net sales growth．Project sales of $\mathcal{P} 91$ million， accounting for $0.7 \%$ of the total，meanwhile recorded a $2.1 \%$ growth year－on－year．

Gross profit grew by $57.4 \%$ or $\mp 1.792$ billion year-on-year to $\mp 4.914$ billion for the period with a gross profit margin rate of $36.6 \%$. The gross profit margin expansion of 210 basis points is traced mainly to changes in product mix within the exclusive and in-house brands classification, which resulted in a higher overall margin for the class, partly offset by the drop in their contribution to total net sales to $49.4 \%$ from $51.2 \%$ in the same period in 2020.

Operating expenses, including lease-related interest expense, jumped $20.6 \%$ or $\neq 579$ million to $\neq 3.388$ billion as a result mainly of the increased volume of business especially of Luzon branches in the second quarter and expansion-related expenses. Rent and net other income tallied flat for the half at $\mathcal{F} 134$ million versus the $\mathcal{P} 135$ million generated in the first half of 2020.

Interest income meanwhile, in view of the lower investible funds with the complete deployment of the IPO funds, dropped by $57.4 \%$ to $\neq 17$ million for the half. Income tax expense in view of the higher taxable income and the one-time expense charged in the $1^{\text {st }}$ quarter following the re-valuation of the deferred tax assets balance as of end-2020 was partly offset by the drop in income tax rate from $30 \%$ to $25 \%$. Capital expenditure for the first half amounted to 1.155 billion, the bulk of which was spent for the construction of new stores.

Lorraine Belo-Cincochan, Wilcon's CEO and President said, "We're pleased that we were able to sustain our first quarter results despite a quite difficult April, which was the height of the NCR plus quarantine." She added that the remaining five new stores targeted to open for the year are on track with the fifth new store opening Friday this week, July 30 in Sorsogon in the Bicol region. She also said that the company's expansion plans will continue both the brick and mortar and in the digital space. Wilcon re-launched its e-commerce site on May 28, 2021.
