## WILCON DEPOT POSTS P1.8 B FIRST HALF 2023 NET INCOME

- First half 2023 net sales of P17.152 billion, up $7.6 \%$ year-on-year
- Gross profit of P6.771 billion, up 9.9\% year-on-year,
- GPM rate of $39.5 \%$

Wilcon Depot, Inc., the country's leading home improvement and finishing construction supplies retailer, today reported net income of P1.818 billion for the first half of 2023 , down by $2.1 \%$ or P38 million year-on-year as total sales growth slowed down while operating expenses growth accelerated, partly offset by gross profit margin expansion and increase in operations-related other income.

Wilcon's President and CEO, Ms. Lorraine Belo-Cincochan, said that, "we had a slower growth in the second quarter mainly due to the decline in foot traffic in our old stores. We have a high base since there was pent up demand for the same period last year as we just came out of the Omicron surge plus there was a slowdown in private construction especially in April with its consecutive long weekends. Historically, months with longer holiday stretches were periods with relatively lower sales since construction projects are usually also paused to save on labor cost or homeowners go on holiday themselves. While our sales still grew modestly in the $2^{\text {nd }}$ quarter, this was not enough to cover the increases in our fixed costs, which comprises the bulk of our opex." She added that despite a seeming softening of demand this year in the home improvement sector, Wilcon remains committed to its expansion plan. "We are still pursuing our expansion plans at our current pace. We want to be ready and conveniently within reach by our customers when demand picks up. We have opened four new stores so far and tomorrow we are opening another depot. We still have seven ongoing construction projects, not including several that are in the planning or permitting stage, which are set to be opened next year," Ms. Belo-Cincochan further said.

## $\mathbf{1}^{\text {st }}$ Half 2023 Results Highlights

Net sales for the half amounted to P17.152 billion, $7.6 \%$ or P1.21 billion higher year-on-year. The increase was mainly driven by the contribution of new stores as comparable sales growth was flattish at $0.2 \%$ for the half. Comparable ticket size expanded by $4.3 \%$ offset by the drop in transaction count by 4.3\%.

Four (4) new stores were added during the half while two bottom-dwelling, smaller format branches were closed, ending the half with 85 stores. The depot format accounted for $97 \%$ of net sales, the home essentials format $2 \%$ and the remaining $1 \%$ by project sales.

Gross profit increased by $9.9 \%$ or P612 million to total P6.771 billion driven mainly by the expansion in gross profit margin from $38.6 \%$ to $39.5 \%$ year-on-year. In-house and exclusive brands' margin increased enough to overturn the impact of the slight drop in contribution to net sales from $51.1 \%$ to $50.7 \%$.

Operating expenses including lease-related interest expense increased $21.4 \%$ or P825 million year-onyear to close at P 4.677 billion. Expansion-related expenses primarily drove the increase particularly depreciation and amortization and manpower expenses. Eleven stores were opened from the third quarter of last year to end-June this year.

Other income jumped $93.7 \%$ or P151 million to close at P313 million for the half traced mainly to the rebate received from a trade supplier for a promotional activity in the first quarter plus the increase in the usual rent and other income from suppliers and delivery fees from customers.

As a result of the flat comparable sales growth coupled with the increase in operating expenses, net income for the half dipped to P1.818 billion, lower by $2.1 \%$ or P38 million year-on-year.

## $2^{\text {nd }}$ Quarter 2023 Results Highlights

Net sales for the quarter amounted to P8.624 billion, up 4.0\% or P334 million year-on-year traced mainly to the contribution of below one-year stores. Slowdown in foot traffic and transaction count in old stores drove company-wide comparable sales (same store sales growth) to decline 3.4\% year-on-year. Comparable transaction count dropped by $7.4 \%$ while comparable ticket size still grew by $4.4 \%$.

Two stores were opened during the quarter, one depot in Luzon and one smaller format in Mindanao.
Gross profit increased by $5.6 \%$ or P181 million in the $2^{\text {nd }}$ quarter to settle at P3.408 billion, attributed mainly to the expansion in gross profit margin from $38.9 \%$ to $39.5 \%$.

Operating expenses including lease-related interest expense likewise grew by $20.2 \%$ or P397 million year-on-year to total P2.364 billion. The increase is mainly attributable to expansion-related expenses.

Rent and net other income closed higher by $23.1 \%$ or P18 million totaling P95 million for the quarter due mainly to the increase in supplier support for marketing and promotional expenses.

In view of the decline in comparable sales and the increase in operating expenses, net income for the quarter slid by $14.9 \%$ or P150 million year-on-year.

Cash dividends of P1.517 billion were distributed in April 2023.
